

2016

August

15 - 17

TAIPEI

TAIWAN

esg5

5th IASPEI/IAEE
International Symposium

Effects of Surface Geology on Seismic Motion

Challenges of Applying Ground Motion
Simulation to Earthquake Engineering

TOPICS

- Ground Motion Simulation
- Soil Dynamic and Nonlinearity
- Applications of Microtremor Survey
- Near Fault Ground Motion
- Downhole Array Observation and Analysis
- Shallow Velocity Structure and Depth Parameters
- Seismic Hazard and Loss Assessment

IMPORTANT DATE

- Abstract Submission
Nov. 15th, 2015 - Feb. 15th, 2016
- Early Bird Registration
Apr. 1st - Jun. 1st, 2016
- Full Paper Submission
Mar. 15th- Jun. 1st, 2016
- Conference
Aug. 15th-17th , 2016
